Dear Hiring Manager,

I am submitting my resume for the position of QA Tester. As a skilled and highly educated professional with 1 year of experience testing Web2.0, Web3.0, Game, IOS and Android Applications, I am confident of my ability to make a significant contribution to your organization.

My professional experience includes analyzing the business requirements, creating test strategies, and executing tests to identify bugs in new software and create and maintain automation packs for the same. With my educational background and my attention to detail and performance, I am in an excellent position to help your organization to produce top-quality software products.

The following are some Skills and highlights of my qualifications and experience:

- Manual Testing of Multiple websites, web applications and mobile applications
- Working Knowledge of tools like JIRA, Bug herd etc...
- Bug reporting and verification of bugs reported
- UI/UX Testing
- Experienced all phases of Agile and Waterfall models.
- Proactively engage and communicate with development team and QA manager regarding issues and their fixes

Documenting all the issues and their fixes

- Create detailed, comprehensive and well-structured test cases.
- Estimate, prioritize, plan and coordinate testing activities.
- Black box Testing (System, System Integration, Smoke, Sanity, Regression, Ad-hoc)
- Complete knowledge of SDLC and STLC and Bug life cycle.
- Team Leading experience

My keen knowledge of software testing, review, and validation—along with my ability to think of innovative solutions

and present them to clients—will allow me to bring much value to your organization. I look forward to discussing this

position and my qualifications with you.

Thank you for your consideration.

Best Regards,

Usman Tahir
